

JOIN MARYLAND SCIENCE OLYMPIAD

WHAT IS SCIENCE OLYMPIAD?

Science Olympiad is a national science competition where teams of up to 15 students compete in science tournaments. Each year, you can pick from up to 23 unique S.T.E.M. topics and disciplines - biology, chemistry, physics, earth and environmental science, engineering and technology. Teams study and prepare throughout the year and compete in annual regional, state and national tournaments in the Spring. You can win individual and team medals at all levels of competition!

WHY JOIN?
